A black and white photograph of a desert landscape. In the foreground, a person wearing a hat and dark clothing is crouching among sparse, scrubby vegetation. The middle ground shows a wide, flat expanse of desert with scattered bushes and a small, dark, irregularly shaped area that could be a pond or a shadow. In the background, a range of low, rounded hills or mountains stretches across the horizon under a clear sky. The photograph has a white border and a white rectangular mark at the top center.
