Judge Hayden returned this week from a trip up toward the head waters of Salt river. He has been examining the country and river with a view of floating saw logs down to his ferry in Salt river valley, and has become satisfied that the project is feasible. A gentleman who has had a large experience in the lumber business in Maine and who has examined Salt river with a view to float logs down to make lumber is of the opinion that it has advantages for purposes of that kind superior to any of the rivers in Maine. If such should prove to be the case, it will materially reduce the price of lumber in the settlements of Arizona, and will prove of great advantage in the construction of the Texas Pacific Railroad and the military telegraph.

Tucson, Saturday, June 14, 1873

LOCAL MATTERS.
Newsom & Co's train came in this
week from Yuma loaded with govern-
ment stores for Grant.
TOLLY & OCHOA and Lord & Williams
each sent trains this week to Grant loaded
with grain and stores.
Dr. WILSON is building a fine residence,
and George HUCKE has his residence and
bakery nearly completed. Several other
buildings are being erected and many
others improved.
The social party at Abadie & Co's, last
Saturday evening was well attended and
every one seemed to be happy, which of
course makes any party a success. We
hope they will have more such.
The weather has been quite cloudy
this week, with occasionally a sprinkle
of rain. Heavy showers have been visible
in the mountains and everything betokens
early and abundant rains this year.
CORPUS CHRISTI day was celebrated on
Thursday in handsome style. The streets
were ornamented with green trees and at
various points altars and shrines were
erected and arranged very beautifully.
The procession was large.
The walls of the commanding officer's
building at Lowell have been completed,
and work has now commenced on the
guard-house. Want of transportation to
draw the adobe is a serious drawback to
the progress of the work.
HARVESTING is progressing rapidly and
new barley is coming into market. Mer-
chants pay 2 1/2 cents for it in trade. We
have heard of no cash transactions yet.
We wish farmers could sell direct to the
government at fair prices, we should then
not hear so much complaint about hard
times.
ATTENTION is directed to the card of
Volney E. Howard & Sons, & Lewis Dent
in another column. The senior members
of this firm have been long and favorably
known on this coast. They propose to
pay especial attention to the land grant
business in Arizona. One of the firm has
recently been in Sonora to examine the
titles to Arizona lands.
JOHN W. HOPKINS, deputy collector of
customs at Tucson, received from col-
lector Goldwell a reappointment this
week. Mr. Hopkins has held the posi-
tion for over a year past and has given
general satisfaction. The new collector
is highly spoken of and is showing excel-
lent judgment in selecting his deputies
from those who live in the Territory.
THE Rev. G. A. Reeder preached in the
Court-house last Sunday morning and
evening to rather small audiences. It is
said that he has a good deal to do with
men's actions, and we fear our people
have been too long out of the habit of go-
ing to church to be called upon for such
duties. Mr. Reeder has given this week
to pay a visit to Cochise, and if he suc-
ceeds in kindling the fire of fraternal
love in the breasts of the savages on that
reservation, the poor people of Mexico
will undoubtedly hold him in dear remem-
brance for all time to come.
We have been shown some stone
brought here by Mr. Ochoa that will
make excellent grind-stones. He informs
us that he found it near the San Carlos,
and that there appears to be an inexhaus-
tible supply there. The cost of transport-
ing grind-stones is so great that there has
always been a scarcity in the market,
and those that have been brought here for
sale have necessarily commanded a high
price. From the material shown us we
should judge that stones of a superior
quality could be made from it. All that
is required now is to find some one who
knows how to make them, and then a
profitable business can be made for the
mechanic and a much needed and valu-
able industry be developed for the Terri-
tory.
R. M. ROBERTSON on Thursday evening
invited all his friends, and that included
nearly every one in town, to come to his
residence at Under den Linden Grove and
nearly every one responded to the invita-
tion. Everything conspired to make it a
pleasant affair. The evening was deligh-
tful, the cool breeze gently moved the
leaves in the beautiful grove and the brook
murmured its satisfaction as it gently
glided by; the grove was made light
as day with lanterns and the assistance of
the moon. The Tucson Band made excel-
lent music, and when we left toward the
break of day the grove presented a fairy
scene, as the immense throng was keep-
ing step to the music in quadrilles, lanc-
ers, polkas, waltzes and reels. Such social
gatherings are a credit to the town and
do much to keep up a harmonious feeling
in the community. It is true that we
suffer much on the frontier, but we have
a good deal of fun in our sufferings.
The fourth of July this year comes on
the fourth of that month, and is some-
what noted for being called the birth-day
of this Republic. Now we hope our good
people will not let it pass this year with-
out doing something to properly celebrate
the day. In order to do it handsomely it
will require a little money and we would
suggest that a committee, say of ten, be
at once appointed to raise the funds and
make the necessary arrangements, and if
it would not be considered presumptuous
in us we would also suggest that Samuel
Hughes, J. S. Vosburg, L. M. Jacobs, W.
C. Davis, Wm. F. Scott, J. H. Toole, Es-
tevan Ochoa, J. W. Hopkins, R. M. B.
Robertson and H. E. Lacy act as such com-
mittee,—the first mentioned five to make
the arrangements and the other five to act
as finance committee. Some suitable
place should be selected in a shady grove
and a band of music employed and play-
grounds prepared for the children, and let
all of every nationality and from every
clime go, and help to make the day joyous
and merry.

PERSONAL.—M. Maloney, from McDow-
ell, has been in town this week.
A. McKey and A. Caballero came in
from San Carlos this week.
E. N. Fish arrived home from San Fran-
cisco last Monday.
H. C. Hooker came in last Saturday
from Prescott.
Captain Hamilton came in on Tuesday
from Yuma with about twenty recruits
and seventy-five horses.
Gen. Sacket arrived on Tuesday and
has inspected Lowell. On Thursday he
reviewed the troops.
Judge Hayden returned this week from
a trip up toward the head waters of Salt
river. He has been examining the coun-
try and river with a view of floating saw
logs down to his ferry in Salt river val-
ley, and has become satisfied that the pro-
ject is feasible. A gentleman who has
had a large experience in the lumber busi-
ness in Maine and who has examined Salt
river with a view to float logs down to
make lumber is of the opinion that it has
advantages for purposes of that kind su-
perior to any of the rivers in Maine. If
such should prove to be the case, it will
materially reduce the price of lumber in
the settlements of Arizona, and will
prove of great advantage in the construc-
tion of the Texas Pacific Railroad and the
military telegraph.
The first invoice of lumber from the
new pinery was brought to town this
week by Mr. Lee. It is of superior qual-
ity and the supply is very extensive. As
soon as a good road is completed and a
mill erected, the price of lumber here will
undoubtedly be materially reduced.
A DETACHMENT of soldiers came in this
week from Bowie after deserters and suc-
ceeded in capturing three.
THE Cabinet at Washington has
had under consideration the subject
of what is to be done with the Mo-
does? It is thought that they will
be turned over to the civil authorities
of Oregon to be tried for their crimes.
This is undoubtedly the practical and
fair solution of the question. Give
them a fair trial and if found guilty,
punish them as white men would be
punished. As soon as savages find
that they will be held accountable
and punished for these deeds of
treachery, they will be less liable to
perpetrate them. But heretofore those
who have committed the worst crimes
have received the most favor.
A LETTER from Fred. Henry in-
forms us that he is building some
arastras in the vicinity of Prescott,
and has plenty of rock that prospects
well in sight. He is undoubtedly
a man of great energy and vigor,
and we are sure that he will be suc-
cessful in his enterprise. The fact is
Fred. can give a man or measure a square
foot of land, but when he gets best by
parliamentary strategy he looks upon
it as striking under the belt, and
sighed for pure air, solitude and his
mountain home.
We extract the following news
items from the Sentinel of June 7:
The body of Jesus Alvarez was found by
a stage driver on the road to Tucson, near
Filibuster Camp. He got lost some time
ago and wandered off on the road to So-
nora. Finding his mistake he came back,
but traveling seventy miles over a desert
with little or no water so exhausted him
that he died before reaching the station.
The body of Samuel Otz, a Swiss, was
found near the Laguna station having
been scalped. Taylor and Rowell intend
to complete the Court-house at Yuma by
the 4th of July. It will be a credit to
the place. The Odd Fellows are about to or-
ganize at Yuma.
We had the pleasure of meeting Mr.
James Stinson, general agent for the
extensive cattle firm of Messrs. Ewing and
Curtis. Mr. Stinson is in charge of a large
herd of cattle for distribution among the
posts in Arizona and New Mexico. He
hails directly from Las Animas, Colorado,
and reports abundance of fine rich grass
and fat stock. All the settlers are doing
well and are pleased with the country both
for stock raising and agricultural purposes.
Mr. Stinson appears to be a very fine gen-
tleman and we hope he will leave New
Mexico with as good impression of her
people and resources as we have of him.—
[New Mexican.]
