ZOOM VERSION

Although hampered somewhat by the changing stage of water at the Roosevelt dam, the ferry crossing Salt river is doing a fairly large business. Upwards of 800 teams and 1400 people were ferried across during the month of January.

Legislature Continues To "Grind" Out Laws

The Council

The following bills were introduced:

C B No. 67, by Mr Morgan, relating to the collection of taxes on transient heads of sheep, goats and cattle.

C B No. 68, by Mr O'Neil, providing rural telephone connection by city companies and punishing refusal to fix same as a misdemeanor.

After carrying recommendation for passage of Pace bill by vote of 7 to 5 and killing of the Goodrich insurance bill by the same vote.

The Duffy anti-gambling bill passed the council by a vote of 8 to 4 and now goes to the governor for signature of veto.

The Assembly

A resolution creating a committee of three to investigate the cost of maintaining the live stock sanitary board was adopted; also a memorial to congress by Mr Morris, protesting against the annexation of any part of Arizona to Utah.

Several bills were taken up and passed.

Mr Bailey's bill abolishing the party vignette was passed by a strict party vote. Mr Doan stated on this that he would not vote against the American eagle.

Mr Duffy's anti-gambling bill also passed the house. This bill was passed under the suspension of the rules, 20 to 3. The Democrat says: "It has been hinted that an effort will be made in the council to amend this bill so that gambling can continue at club houses. This will practically defeat the purpose of the bill, and the friends of the bill in the lower house will not stand for such an amendment."

The following bills were introduced:

H B No 87, by Mr Sutter, relating to the fees of sheriffs.

H B No. 88, by Mr McCormick granting boards of supervisors additional clerks.

H B No. 89, by Mr Woolf, amending the game law.

The Norton memorial, asking congress to annex 8000 square miles south of Yuma, was passed by the house and will be forwarded to Washington.

H B No. 11, Mr DeSouza, creating an embalming board and requiring examination before practicing embalming, was passed.

H B No. 44, by Mr Woolf, providing for an exhibit at the Yikon exhibition, was indefinitely postponed.

The following bills were introduced:

H B No. 91, by Mr Hogwood, relating to compulsory sidewalks.

H B No. 92, by Mr Bray, appropriating \$500 for indexing journals of last legislature.

H B No. 93, by Mr Bailey, providing for printing of official alphabetical ballots.

H B No. 94, by Mr Peterson.

H B No. 95, by Mr Morris, appropriating \$10,000 to fix up old capitol at Prescott.

H B No. 96, by Mr Duffy, payment of employees in estate.

Phoenix — The Pace bill was brought up in the Council today, the committee reported favorably and after same was read a motion that the bill be recommended to pass, carried by a vote of 7 to 5, Goodrich voting to recommend passage.

This is a test vote on the prohibition measure and means the bill will pass when called up on final passage tomorrow by the same vote.

Hampton moved to amend bill by segregating cities and towns into local option districts, instead of having the elections apply to the entire county and ban placed on all saloons in county, as provided in the Pace bill Hampton's amendment was lost by a tie vote.

The Goodrich insurance bill was killed by a vote of 7 to 5.

In reference to the memorial to congress, introduced by Mr Norton, asking that action be taken looking to negotiations to acquire a strip of land from the government of Mexico, Mexican Consul Arturo M Elias stated today that he is duly informed that the laws of Mexico do not allow the Mexican government to cede an inch of national territory to any other foreign power, and that the patriotism

of its loyal citizens would never permit the consummation of such an act contrary to the laws of Mexico—Gazette.

Phoenix — The Council today passed the Pace prohibition bill by a vote of 7 to 5, being the same vote as was registered yesterday when the bill was recommended for passage.

When the bill finally passed a demonstration of applause swept the galleries which was stopped with difficulty.

The governor will sign the bill as soon as it reaches him.

Washington—The statehood bills were received in the committee on territories today in the senate. The matter was referred and no action taken.

The consensus of opinion among the senators is that no action will be taken this session, although nearly all the senators favor the bill.

Washington—The statehood bills were received in the committee on territories today in the senate. The matter was referred and no action taken.

The consensus of opinion among the senators is that no action will be taken this session, although nearly all the senators favor the bill.

Trial Before Referee McFarland

A trial of much importance was heard before Referee in Bankruptcy Daniel McFarland yesterday. The case involved the validity of four claims aggregating \$6,400 filed by members of the Achuleta family against the Douglas Dry Goods Co., bankrupt, in which concern the complainants were heavily interested. The claims were opposed by the trustee hence the suit. The claimants were represented by Cass & Sames and the trustee by Geo. H. Neale. After hearing the evidence and arguments which occupied the afternoon, Judge McFarland decided in favor of the trustee.

Tombstone Succor Enthusiast Names Team to Win Honors

Bisbee, Ariz., Feb 17, 1909.

Ed. PROSPECTOR—It was with the greatest pleasure that I read in your issue of the 9th inst., the letter signed "Yours for Sport" in which he urges the formation of a "Soccer" football team in Tombstone. He says there is a team playing in Bisbee. It may interest and please him to know that there are now four teams in existence in this city, with every probability of more coming into existence soon; also that a league has been formed and named "The Warren District Association Football League." A report of the first meeting appeared in the Bisbee Review on Feb. 16, and if "Yours for Sport" will write the League Secretary Box 454, Bisbee, he can have all the information he needs.

The Bisbee boys are very enthusiastic about the game and are receiving every encouragement from prominent tradesmen, some of whom have promised to provide a trophy to be played for.

Hoping "Yours for Sport" will boost the game, and regretting that I did not see his letter sooner, I am yours,

W. D. A. F. L.

Ed. PROSPECTOR—It was with pleasure that I read the query by "Yours for Sport" about Soccer football. Can it be played in Tombstone? There is no reason why it cannot be played in Tombstone. As "Yours for Sport" says there is good material in Tombstone. Here is a team which might be brought together and with practice would be able to hold its own with any team from Bisbee or elsewhere. They are, most of them, old Rugby or Soccer players from the "Auld Country".

Goal—Bob Graham.

Backs—T. Cowan jr; Dave Thomson; Hal Banks—Paul Murphy, James Armstrong, Tom Dorrick.

Forwards—Right wing, Hugh Corbett, Will McPherson; T. Cowan; Left wing Davis, and Dunlop.

These could be added to, as I am sure there are others who would like to uphold the good name of Tombstone in the world of sport, whom I am not familiar with.

I should like to hear from others and have suggestions in this matter so that we can do "Yours for Sport".

Socgon

Satisfied With Present Conditions

A majority of the level headed business men of Douglas and Bisbee are opposed to any trifling with the present county seat removal law, as being calculated to set up unnecessary commotion and expense, and feel that the old law is just about what it should be. They feel that the safeguard which the existing act throws about the people and the taxpayer should not be torn down. When the development of the community draws the reasoning citizen normally to the conclusion that the county seat ought to be moved, the necessary signatures to a petition for an election to remove can be easily obtained without permitting foreign non-residents to petition for an election in which they would not be an elector.

Want to Divide An Arizona County

A delegation of fifteen arrived in Phoenix yesterday from Clifton and Morenci to work for the division of Graham county by the legislature. A bill to that effect will be introduced at an early date, and it is the intention of the delegation to remain at the capitol until it passes or fails of passage.—Gazette.

Suit 5570 filed; Reguel Benedict vs Joseph McGuire et al; action to quiet title on the Banner mining claim situated in the Turquoise mining district.

Suit 5571 filed; Birdie M. Olson vs J. L. Olson; action for divorce.

Suit 5572 filed; R. S. Grier vs Cockise county; action for debt in the sum of \$391.20.

Suit 5573 filed; Wm J. Lobb vs Emily Lobb; action for divorce.

Suit 5237, judgment; Wm B. Civers Dr to Jennie C. Civers, Cr; decree of divorce and care and custody of minor child.

Suit 5574 filed; H. F. Sloan vs Bankers Reserve Life Co; action for damages in the sum of \$178.50.

Suit 5575 filed; Thomas Grady et al vs Albert Cox et al; action for debt in the sum of \$2000 with interest at 12 per cent per annum.

Woman Expert at Courtland

Mineresses—this means a mining individual of the feminine gender. Such people have been known to succeed, and further, are greatly to be admired when they do. Such a woman is Nellie Cashman, of Tombstone fame, absolutely absorbed in and devoted to her calling to the exclusion of sentiment or any other element that is calculated to divide her thoughts.

Another is Miss J. E. Harrison of Joplin, Mo.

Now these ladies, in no instance have ever been distinguished for their ability to go into a mine, take samples and secure representative assays, but they know how to proceed.

They fully understand organization, corporation, capitalization, manipulation and amalgamation.

They are in touch with capital, and when you submit a report to them, demonstrating to their satisfaction that it is conservative and reliable, they can put their fingers on the men who want that identical proposition, and are, therefore, valuable in any mining field, camp or community.

It is refreshing to observe the softer sex entering this rugged sphere and competing to the good with the oldest and most experienced men in the land, and they should receive every species of recognition, and encouragement.

Miss Harrison is at present in Courtland, and if her impressions are favorable, which they doubtless will be, will be able to communicate a good report to men representing unlimited capital in the East, which is calculated to be of vast importance to Cochise county and to the industry which makes Arizona great.

Calls An Extra Session of Congress

A Washington dispatch says—An extra session of congress will convene on March 15th. This was definitely settled today. President-elect Taft authorized the announcement.

The date was arranged after a conference between Taft, Senator Aldrich and Speaker Cannon.

It is probable that the Arizona statehood bill will be taken up at this extra session.

The first of the big bands of sheep arrived in Kingman this week and the town will soon be filled with the usual number of sheep-shearers and the various camp followers, says the Miner.

The Armin Players Coming to Tombstone

About a year ago the Walter Armin Stock company was in Tombstone and gave us a series of excellent performances, and by arrangements made this morning, Manager Warschke has succeeded in getting this excellent company to return for four nights beginning Feb. 24. The company is now playing a month's engagement in Bisbee, which will terminate on the 23rd inst.

From Thursday's Daily.

Sup't Bert Mac'a of the T. C. M. Co. is getting the "auto" bee, as is also Master Mechanic Garrett.

The Courtland townsite goes on the market on the 24th inst. The Messrs Young are in Tombstone today on business relating to the same, and also to get their canteens filled with Huachuca water.

Cal Messner is a county seat visitor from Douglas today.

President E. T. Ijams of the Tombstone Telephone Co left yesterday for Safford on brief visit.

W. R. King today received a carload of buggies and wagons for his carriage repository. The demand for autos has not yet supplanted the buggy or use for first class wagons and Mr King has a fine line to select from.

Probate Judge F. W. Goodbody, Attorney W. G. Gilmore and Wm Decker were left for Courtland this morning in Buchanan's swift going and easy riding Cadillac.

Don't forget on Monday next the masquerade dance will be the event of the year.

Dr. B. C. Tarbell arrived today from Naco on brief professional visit.

Trip is Postponed Due to Illness

Mrs. F. M. Doan is very ill at her home, on account of which illness Judge and Mrs. Doan have had to stand an intended visit to Hermosillo and Guaymas, to see the sights of the carnival season, and to Culiacan, also, with other points in Sinaloa.

Arizona Physicians Want Appropriation

Dr. A. W. Olcott, president of the Arizona Medical Association, stated to a Citizen reporter yesterday, that physicians all over the territory are making a concerted effort to have the legislature set aside a special appropriation for a bacteriological and chemical laboratory at the University of Arizona, especially equipped for making tests of milk, water and food that they may be submitted from any city or county in the territory.

It is estimated that an appropriation of only \$12,000 would be required to maintain the laboratory.

Reason and Logic Will Prevail

Just where the lightning will hit next at the hands of the legislature, and how far the reverberation will prevail throughout the ozone of the territory, cannot be predicted by the wisest heads, but this we are confident of through the force of logic, law, constitution and equity and that is: that the wild cat county seat removal bill will receive scant recognition at its hands.

Unfortunate Patient Taken to Asylum

Sheriff Jack White left last evening for Phoenix taking with him the unfortunate Mexican, Eduardo Solos, who will be placed in the asylum. Solos was the victim of a nitroglycerine explosion, which occurred at his home near Benson about a year since. He leaves a wife and five children. The case is indeed a sad one.

J. N. Gaines Reported as Steadily Improving

Col. A. L. Grow returned this morning from a short trip to Los Angeles. While there he called upon J. N. Gaines at the Hollenbeck and reports his condition much improved, and that during the past week he has gained considerable strength and the doctors expect that he will be able to undergo an operation for appendicitis within the next few days. His many friends in this part of the county sincerely hope that it will not be long before he will be able to be about again.

Early Tombstone Resident Dies

Among the death notices published in the Los Angeles papers appears the name of R. P. Mansfield, son of Mrs. General John Mansfield who died at 2312 Figueroa St on Feb. 15th. The deceased was at one time a resident of Tombstone during the early days, having conducted a mercantile business under the firm name of Fitzhenry & Mansfield, on Fifth street opposite the present Wells Fargo & Co.

The evening train bound for the West yesterday carried with it a number of prominent parties, most of whom departed for Tucson. Among the passengers were Col. W. J. Young, Jr., of the Great Western Mining Co; A. E. Mills, superintendent of the Detroit Copper Co at Clifton; W. E. Berry, general manager of the Shannon Copper Co at Clifton; City Attorney Charles Bowman; District Attorney John S. Williams; J. M. Montana, of the Fairbank Commercial Co; Sheriff John F. White and wife, and A. E. Averill, a diamond drill operator at Courtland.

ARIZONA INDIAN DEAD

Chief Geronimo Has Passed Away

A Lawton, Okla., dispatch says:—Geronimo, the noted Apache Indian chief, died today at Fort Sill, where he was confined as a prisoner of war. He has been a prisoner for twenty years. Pneumonia killed him. He died with a grin on his shrunken old face. He resisted the white man's doctor and insisted on an Indian medicine man. He died hating palefaces, as he had them all his life.

Geronimo was war chief of the Apaches and surrendered to General Miles at Skeleton Canyon, Arizona, in 1887.

A Lawton Okla., dispatch says: Geronimo, the Apache chief, was laid at rest in the Apache burying ground northeast of Fort Sill today. Rev. Legters, an Indian missionary minister, conducted services as similar to the old Apache style of burial as his conscience would permit. The war department set aside today as a holiday for all the Apache prisoners of war at Fort Sill and 200 old warriors joined in the funeral procession. Only great efforts kept Geronimo's sorrow from killing the old warrior's sorrel driving horse, his favorite animal, so that it might pass with him to the happy hunting grounds.

Geronimo joined the Reformed church four years ago, when he thought he was going to die of injuries from falling from a horse. He was suspended from the church two years later for excessive drinking, gambling etc. The sun was his conception of the Deity.

The four-inch well which H. O. Carr finished for the Southern Pacific company last week, is flowing at the rate of fifty gallons per minute, says the Benson Press. Flowing water was first struck at a depth of nearly 400 feet.

During the month of January just past, 17,000 pounds of Sonora tomatoes were brought across the international line at Nogales and shipped to the California markets, as against 1,000 pounds during the month of January, 1908. On Monday a large consignment was crossed from Hermosillo, consigned to Los Angeles, California.

The Nogales Vidette says: Gus Heyman, the veteran traveling salesman, who for more than thirty one years has been coming to Arizona, was a stopover visitor here the fore part of the week on his way to Guaymas and Culiacan, where he has gone as a guest of Superintendent A. R. Oater, an old time friend. Gus is well and favorably known in every city and town in Arizona, and is universally liked everywhere.

A. W. Richardson, who is to be cashier of the new bank at Parker, has the finest private collection of coins, both ancient and modern, in the United States, says the Phoenix Gazette. Mr Richardson is one of the leading numismatists in the country and has been fourteen years gathering his present collection, which he values at \$10,000. There are 1,286 coins altogether, no two alike. He has 125 different kinds of dollars.

Although hampered somewhat by the changing stage of water at the Roosevelt dam, the ferry crossing Salt river is doing a fairly large business. Upwards of 600 teams and 1400 people were ferried across during the month of January.

James H. Tillman of South Carolina is registered at the Santa Rita hotel, Tucson. He expects to remain there some time for the benefit of his health. Mr Tillman is a nephew of the famous senator, Ben Tillman, of South Carolina, and is a son of the late George Tillman, who was a member of congress for more than twenty years. During the Spanish-American war Mr Tillman was colonel of the First Infantry of South Carolina and was for a time lieutenant governor of the Palmetto state.
