The season for this trip has ended 11/9/2014 due to the cooler weather and water condition. This section of the river offers several sporty shoots where getting wet is mandatory and it just getting a wee to cold. We still offer the Water to Wine Tour this time of year on a calmer less splashie section of the river if you are interested in a river trip with yummy wine at the end.

New Guided Trip on the Verde River at Clarkdale

Boating in the desert on a brand new stretch of the Verde River that just opened, through the land that time forgot? We call it the Verde River at Clarkdale stretch. How cool is that!

Not often can you experience a beautiful stretch of a waterway in Arizona that has seen very few boaters on it especially in the desert. This trip begins just up stream from the [Town of Clarkdale, Az](#) across from the historic [TAPCO](#) (The Arizona Power Company) power plant and ends at the base of [Tuzigoot National Monument](#) a 1,000 year old ancient pueblo site. Cruising down this incredible new stretch of the Verde River at Clarkdale in a "Ducky Kayak" is a blast! These inflatable kayaks are comfortable, unbelievably stable, easy to paddle and just plain fun for everyone!

You will discover a whole new world while gliding down these magical waters of the Verde River at Clarkdale, on the only 'Wild & Scenic River' in Arizona, in your safe and stable Ducky Kayak. The [Town of Clarkdale](#) located just below the historic mining town of [Jerome, Az](#) is the entry way for an incredible wilderness of spectacular canyons, verdant forests, brightly colored wildflowers and a multitude of wildlife including mule deer, beaver, river otter, great blue herons, red tail hawks and golden and bald eagles.
