At Gila Bend a number of the party, including himself, Lieut. Gully, who served with Gen. Price in the Mexican war, and a man named Richardson, stopped at the Pima villages for the purpose of building a boat, in which they intended to float down the Gila to its confluence with the Colorado. This plan was consummated, and in due course of time they reached Yuma, where they remained for some time resting up. The Colorado Indians were hostile at that time and a constant lookout on either side of the river was the only means of securing safety in travel.

THIS SPEECH.

Chairman Thurston Wildly Cheered by his Enthusiastic Audience.

MCKINLEY & MORTON. That Looks Like the Ticket Which Will be Nominated.

ST. LOUIS, Mo., June 17.—When the applause had subsided, Thurston said: "Gentlemen of the convention; this happy moment of your kindred and confidence will abide in my grateful memory for ever. My sole ambition is to meet your expectations and I pledge myself to exercise the important powers of this high office with absolute impartiality."

OUR GREATEST NEED. It is apparent to any Arizonan visiting the east that the people of that section are densely ignorant as to the resources of our territory.

EARLY HISTORY.

Some Reminiscences of the Times That Tried Men's Nerves.

Among the old-time Arizonans, who risked their lives in the venture to secure a share of California's golden store, is Robert McKerrow, a sturdy Scotchman, who now resides at Safford, in Graham County, where he is highly respected throughout the community.

MR. McKerrow first passed through Tucson in 1849, enroute to California. The party with which he was traveling consisted of 120 men and two women.

AT Gila, he had a number of the party, including himself, Lieut. Gully, who served with Gen. Price in the Mexican war, and a man named Richardson, stopped at the Pima village for the purpose of building a boat, in which they intended to float down the Gila to its confluence with the Colorado.

THE Indians at the Pima village were friendly, and being very industrious, had planted many fields of grain, wheat, they remained for some time resting up. The Colorado Indians were hostile at that time and a constant look-out on either side of the river was the only means of securing safety in travel.

FEDERAL GRAND JURY.

Representative Citizens do Duty for the State.

Federal court was reopened yesterday morning, and the grand jury, with M. P. Freeman as foreman, was charged with the consideration of sixteen criminal cases.

THE calendar of crime is a varied one, beginning with murder, and running down to smuggling and cutting timber on public lands.

THE evidence in the case of C. E. Eggleston, charged with adultery, was being considered sufficient, he was discharged, as was also the woman in the case against whom a charge of bigamy appeared.
