TWENTY-SIXTH YEAR

# The Shubert Shipper

Vol. IV No. 4 Jan. 12 1909

**A RECORD OF WHAT IS DOING  
IN ALL THE MARKETS OF THE WORLD  
IN AMERICAN RAW FURS**

**Extracts from The Shubert Shipper of January 12, 1909:**

The greatest Raw Fur market in the history of the trade. Personally, I like it for there is more excitement in it to the square inch than was ever found in a political convention with nine candidates for the same office. We are not buying furs to look at but to sell, and we advise all our friends to get into the band wagon, but keep it moving. It is the best trading market, the raw fur dealer ever saw or ever will see.

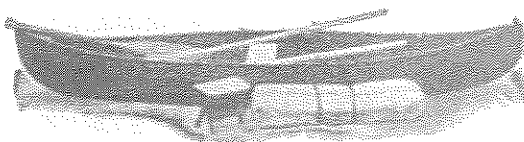

Buy and sell but do not hold goods.

The offerings of the London sales were also given in THE SHUBERT SHIPPER of January 12th, as well as much other valuable information to trappers, collectors and shippers of furs.

THE SHUBERT SHIPPER is issued twice each month during the Raw Fur season, about the 1st and the 15th, containing timely information. If you are interested in raw furs and mention the H-T-T, we will put your name on our mailing list for the balance of the season, sending you each SHUBERT SHIPPER as soon as ready for mailing. Remember that two are issued each month.

**SHEARD'S "GOLD" FRONT SIGHT**

Made to fit any Rifle, Carbine, Target Pistol or Revolver as well as the Luger and other Automatic Pistols. Price, postpaid, \$1.50. (Discount to dealers.)

Compare the looks, make, workmanship and finish to any other sight manufactured. But no cut or picture does this Sight justice you must see it on a GUN to appreciate its value.

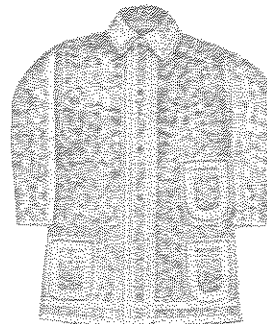

No matter how poor or old your eyes are you can see to shoot with this sight. I will GUARANTEE that you cannot hold it in any light and make it BLUR, that it will show WELL in the DARKEST TIMBER you can find, and that it will improve your shooting greatly.

The sights are made of the best machine steel, fitted with a long Gold, Platinum and Copper Alloy Bead, that is PUT ON TO STAY, NOT BASILY KNOCKED off like the Lyman and King beads. The sight can be used with either Globe or Open Rear Sights and are made in either coarse, medium or fine beads as well as the correct height and size for all arms. Send me \$1.50 in cash, stamps or money order for one of the sights, stating the make, model and calibre arm you wish to use the sight on.

Put the sight on your Gun and use it where you could not see any other sight, try it under all circumstances and conditions of light and if you do not say it is the best sight you ever used, return it to me and I will cheerfully return your money. on 7 days trial. Play it a week in your own home and if it does not prove to be the **Largest, Finest Finished, Clearest Toned** Phonograph you ever saw sold for the price I ask—why, just send it back at my expense by Freight. I don't want your money unless you are pleased with the Duplex.

I stand the Express Charges on shipment to you. The new model Duplex contains a number of improvements which places it in a class by itself. A very much better motor; new finish on the metal parts; a larger number of free records; an improved feed and weight regulating device, and several minor improvements. My literature tells all about prices and terms and why the Duplex is superior to other phonographs. Ask for free catalogue. I make a specialty of supplying imported records with the Duplex, and can furnish you records in any language. Ask for special record catalogue in the language wanted. If you are already the owner of a talking machine (either disc or cylinder), let me write you about my plan to **Select your Records at Home.** Only way to get just what you want with the least trouble and expense. **Get My Prices** before buying elsewhere. ### IT ALL DEPENDS ON THE MOTOR

When you buy a Marine Motor you want the best—undoubtedly you try to find out which is "the best." You want a motor that is "trouble proof" for when the engine stops the boat stops. You want an engine that is dependable and that will last more than one season, at a minimum cost for repairs and fuel.

If you have a racing boat you want "to win"—if a pleasure launch you want to know that when you take a pleasure trip you will not have to be towed home. You don't want any base explosions that make your family and guests think the motor is going to blow up.

**ROBERTS MOTORS ARE TROUBLE PROOF**

Designed by E. W. Roberts, M. E., one of the most expert mechanical engineers in the United States, and constructed under his personal supervision, they are infinitely superior to every other marine motor made in this country. You ask "Why?" Well, there are so many "reasons why," that we can't explain them all in this small space, but our catalogue tells the reasons—gives many testimonials and tells why motor boats equipped with **Roberts Motors** "win in the races." You don't need to be a mechanical engineer to understand the **Roberts Motor**—it's so simple, easy to operate and absolutely dependable. Send us your name now—our catalogue will be sent you by return mail.

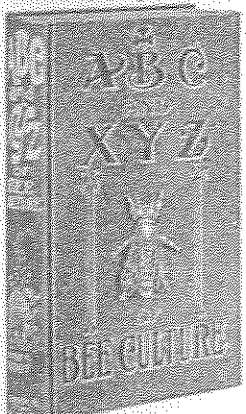

Will exhibit at National Motor Boat Show, Madison Square Garden, Feb. 15th to 23d.
