Here's a Real Canoe

The man at the bow and the man at the stern of an "Old Town Canoe" know they have canoe perfection under them at the first stroke of the paddles. The

"Old Town Canoe"

is a professional product. There is no guesswork, no amateur workmanship about it. From bow to stern, from keel to gunwales, it is a craft that inspires confidence and breeds clear pleasure. There isn't an unsound stick of wood in an Old Town Canoe. Each has its full number of ribs. The planking is run in long lengths only and each plank is fastened with four copper tacks at each rib.

Don't spoil or mar the fun of your trips with a hard-to-manage, hard-to-paddle canoe. The Old Town Canoe is light for its size, beautifully proportioned and balanced. Paddles easily. Known everywhere. Owned by those who know most about canoes. We have agents everywhere. Our illustrated catalog, full of canoe pictures and canoe facts, sent free for a postal. 2000 canoes in our storerooms insure prompt deliveries.

MULLINS STEEL BOATS CAN'T SINK

The reason is this: They are built like Government Torpedo Boats, of tough, puncture-proof steel plates, pressed to rigid form and so securely joined together that a leak is impossible. The Mullins Steel Boats are *guaranteed* against puncture—leaking—waterlogging—warping—drying out—opening seams—and **NEVER REQUIRE CALKING.**

MOTORS: The Loew-Victor 4-Cycle and Ferro 2-Cycle. Light—powerful—simple—can be operated by the beginner—start like automobile motors—one man control—never stall at any speed—exhaust silently under water.

We also manufacture a complete line of steel hunting and fishing boats—row boats—cedar canvas-covered canoes.
