THE G. & R. .22 CLEANING ROD IS THE BEST CLEANING ROD IN THE WORLD
ITS POINTS:

1. It has a knob on end.
2. It is smaller behind the knob.
3. It is rough one inch behind the knob which holds the cloth from slipping on the rod, and keeps the cloth from doubling in the rifle.
4. It pulls as easy one way as the other.
5. The rod is made from three-sixteenths hard brass and will not hurt the rifle barrel, as the cloth folds all around the rod and keeps the rod from coming in contact with the rifle.
6. To use the rod take a patch of cloth of about one inch square and place over muzzle of rifle, push it in with the rod and you will see the results.
