Catarrh is not merely a disease of the mucous membran linings of the body as some of the symptoms would seem to indicate; it is a deep-seated blood disease, in which the entire circulation and the greater part of the system are involved. Like all other blood diseases, Catarrh comes from poisons and impurities accumulating in the circulation which irritate and inflame the tissues and mucous surfaces, and then the unpleas-ant symptoms of the disease are manifested. There is a ringing noise in the ears, a thin, watery discharge from the nostrils, filthy matter drops back into the throat, the breath has an offensive odor, and many other annoying and unpleasant symptoms are characteristic of the trouble. Sprays, washes, inhalations, etc., cannot reach the blood, and are therefore valuable only for the temporary relief they afford. To cure Catarrh the blood must be purified. Nothing equals S. S. S. for this purpose; it goes down into the circulation, removes the catarrhal matter, purifies the blood and makes a lasting cure. When S. S. S. has removed the cause, the blood being pure and healthy nourishes the membranes and tissues instead of irritating them with noxious matter, and the symptoms all pass away.
