ZOOM VERSION

MORE RAINY WEATHER—All Saturday evening after the big shower late in the afternoon, there was a series of little showers and Sunday forenoon, Easter Sunday at that, there were occasional showers. The total precipitation was not large but there was just a little more than an Arizona duck cared to be out in and just before dark last night there was another quite heavy shower with indications to the eastward that it was raining still harder. There was a thunderstorm to the west and northwest of the city in mid afternoon and the early evening shower here last night was accompanied by a very vivid electric demonstration. The wind was from the west and northwest nearly all day Sunday until late in the afternoon when it veered to the east and northeast about the time the heavy rain began. The humidity was unusually low all day even during the rain, and the showers continued all evening. The precipitation from 4:30 Saturday afternoon to 5:30 Sunday afternoon was .15 of an inch and probably as much more fell last evening with promise of rain all night. The

OF LOCAL INTEREST

A CRAZY MEXICAN—Sheriff Shanley of Gila county arrived in the city yesterday morning with a Mexican who had been committed to the territorial insane asylum.

ATHERTON-MORGAN—The Copper Era announces the marriage in Clifton one day last week, of Mr. S. T. Atherton of that city and Miss Emma J. Morgan of Phoenix. They will reside in Clifton.

A BUSINESS MEETING—A business meeting of the Bankers' Young People's union is called for tonight at the church at 7:30 when important business will be transacted. Every member is requested to attend.

REAL BUSINESS—It is gratifying to learn of one legislature that is doing something really worth while. The Honolulu Advertiser of April 9 announces a baseball game between the members of the senate and the house of representatives.

FORMER RESIDENTS—Mrs. Margaret Gray of Los Angeles, a former resident of this city, is here for a short visit. Yesterday her son George who is in the office of Wells Fargo & Co., at Tucson, spent the day here visiting with her, and returning to Tucson last night.

A FAMILY REUNION—Among the recent arrivals in the city is Charles C. Newton, a business man of Philadelphia. He is a brother of Dick Newton a permanent resident of Phoenix and of Miss Helen Newton of Philadelphia who arrived in the city a few days ago. His coming was without warning and occurred in a general tour of the west for purposes of recreation.

AT HOME IN WICHITA—Dr. Craig who returned from Chicago a few days ago, where he went to see his mother, Mrs. H. W. Craig, who is very ill, says that he brought his mother back to the family home in Wichita. She expects to spend the summer. She has a nice home there and beside the attentions of a competent nurse she has the care of a sister and niece to whom she is devotedly attached.

CIVIL SERVICE EXAMINATIONS—The United States civil service commission announces an examination to be held on May 2 to secure eligibles which to fill a vacancy in the position of book keeper in the departmental service. The age limit is twenty years or over at the time of the examination. On April 26, 27 and 28 an examination will be held for the purpose of filling a vacancy in the position of mechanical draftsman in the ordinance department at large.

CLIFTON INCIDENTS—Jack Coughlan, one of the oldest and most efficient section foremen in the service of the A. & N. M. railroad, was run over accidentally by a train in the Clifton yards a few days ago and both feet crushed, one of them so severely that amputation was found necessary. He is a man of family and also lost heavily in the floods of this spring. Florencio Villegas fell 85 feet in a shaft of the Golden Ophir mine in Graham county a few days ago and was killed.

BACK FROM CANYON—Alex Veltch, general manager and superintendent of the Arizona Copper Co., at Clifton, spent yesterday in Phoenix with Messrs John Wilson and William Exley Miller of Edinburgh, Scotland, directors of the company. They are en route south after a visit to the Grand Canyon, having passed through here a few days ago en route north. The Copper Era speaking of the visitors to that camp from Scotland says Mr. Miller a week ago preached an excellent sermon in the Presbyterian church of that city the seating capacity being taxed by those who desired to hear him.

A SPECIAL OCCASION—In the Easter greeting of Commander Halsey of Phoenix commandery No. 3 requesting all Knights Templars to attend the service in the First M. E. church last night is the following: The service this year will be more solemn and sacred because of its associations and its memories. In this place of worship assembled Phoenix commandery to offer its tribute of respect and love to the memory of our honored fathers, Colonel William Christy and Major J. M. Christy. In this pulpit ministered our beloved brothers, Dr. E. D. McCreary, Rev. C. J. Chase and Dr. S. A. Thompson, and in this pulpit today stands a friend whom we honor and whose words ever appeal to our hearts.

REPUBLICANS WILL TALK—There will be a mass meeting of citizens at the Dorris theater on Tuesday night to which all are invited. It is called by the republican city central committee and it will of course be a meeting in the interest of the republican municipal candidates. The meeting will be addressed by J. C. Adams who heads the ticket, by Governor Kibbey and by Mr. B. A. Fowler who was the republican candidate for congress last fall. To all who come there is promised a feast of things to think about and numerous reasons why the ticket nominated by the republican convention should receive the support of the Phoenix voters at the coming city election.

MORE RAINY WEATHER—All Saturday evening after the big shower late in the afternoon, there was a series of little showers and Sunday forenoon, Easter Sunday at that there were occasional showers. The total precipitation was not large but there was just a little more than an Arizona duck cared to be out in and just before dark last night there was another quiet heavy shower with indications to the eastward that it was going to get still harder. There was a thunderstorm to the west and northwest of the city in mid afternoon and the early evening shower here last night was accompanied by a very vivid electric demonstration. The wind was from the west and northwest nearly all day Sunday until late in the afternoon when it turned to the east and northeast about the time the heavy rain began. The humidity was unusually low all day even during the rain, and the showers continued all evening. The precipitation from 7:30 Saturday afternoon to 5:30 Sunday afternoon was .15 of an inch and probably as much more fell last evening with promise of rain all night. The

forecast for today is clearing. Another interesting feature of the weather situation is that during the last eight days there has been a daily deficiency in temperature of six degrees, below the average. It appears that Arizona's dry time has become wet, her winter is to be further modified by warm temperatures and her spring and perhaps her summer is to be cut down from former temperatures. In fact there seems to be movement on foot to make this country ideal.

M. E. CHURCH SOUTH REVIVAL SERVICES—There was a good sized audience at the M. E. church south yesterday morning on the occasion of the opening of the revival services. The church was beautifully decorated with various kinds of flowers. The large chorus choir was well organized under the direction of Professor Clyde Evans and sang delightfully. The pastor, Rev. Harold Govette preached on the parable of the Talents and at the close of the sermon nearly the whole of the congregation knelt in a prayer of consecration. At the evening's service in spite of the rain a splendid crowd was out to listen to the earnest message delivered by Rev. Mr. Northrup who spoke at length on "The Christian Inheritance." The service was interesting and doubtless profitable. Mr. Northrup who is assisting the pastor in the revival services was at one time a leader among the Christian workers of Dr. Talmage's church in Brooklyn but is now in charge of M. E. church south in Tucson. The services will continue throughout the week, every day at 10 o'clock and every evening at 7:30.

COMING MUSICAL EVENT

Farewell Concert of Mackenzie Gordon, May 3.

It is timely to again mention the farewell concert of Mackenzie Gordon which is to be held in the Dorris theater on the evening of May 3, for it will perhaps be his last appearance in public here at least for a long time. It is his purpose to leave here in a few weeks for his business here shall again necessitate his return and he hopes with great confidence that that will not be the case. He has received material benefit during his residence of something over a year and has made a host of friends, while in the matter of his art, he has appeared many times in public and always with favor. It seldom Phoenix has been permitted to hear so sweet a singer and probably never before has one of such talent tarried in the city so long. The fact of his early departure and his last concert appearance will cause many to attend who otherwise might deny themselves the treat thinking to improve a later opportunity.

Mr. Gordon has secured to assist him in this concert, the services of Mrs. W. N. Tiffany, soprano, Mrs. Shelby Cullom, mezzo soprano, Mr. Frank Hilderbrand basso, Mr. E. P. Wilson tenor, and Mr. Karl Coehms of the Arizona school of music, basso cantante. These are all talented singers and are all well known in the community. The ladies and Mr. Coehms, assisted Mr. Gordon in his former concert, than which there could be no greater success and they are too well known in the community to need laudatory mention, their talents being in almost constant demand.

Mr. Wilson is equally well known and has often appeared in church, concert and other entertainments, having a voice of exceptional sweetness and well cultivated. Mr. Hilderbrand is a comparatively new addition to Phoenix musical circles, having been here but a few months but he has been frequently heard and always with pleasure. No better aggregation of talent could be secured in Phoenix for an artistic concert program and the numbers that will be given will verify the statement.

There will be presented in the program everything from the ballad to the productions of the composers whose greatness is acknowledged and whose literature is a part of the best musical literature of every civilized land. There will be solos, duets, trios, quartets, etc., and Mr. Gordon will himself present a solo program decidedly different in feature from his previous efforts including a number of new Scotch ballads.

The tickets for the concert are now on sale at Drachman's cigar store and at Berryhill's and can be exchanged at the latter place for reserved seats. The first of any time between that date and the concert date, May 3. But there will undoubtedly be a large sale and to be sure of choice seats one should buy early and be present when the ticket exchange is first opened.

PRIVATE SALE.

That elegant residence property, corner Jefferson street and Broadway, The Sam Snead place, half cash rest at 8 per cent for 3 or 5 years. Deal with guardian for Snead children only. No commission.

LADIES' PARASOL

In the House

MIRRS OF WICKENBURG

Business Men's Association Issues a Prospectus.

There is a new prospectus in the field and it is a most worthy publication, presented and vouched for by the Business Men and Miner's association of Wickenburg. This is an organization of which that district was very much in need and designed in a general way to do for that community, what the Board of trade is doing for the county in general and particularly for this valley. The need of the association was apparent when the people of that town were approached for information concerning the resources of the district for the maintenance of a branch railroad into the Castle Creek country; the possible construction of a smelter and similar enterprises that might be for the benefit of the community. And feeling the need of some system in supplying the necessary data the association was at once formed.

The prospectus is one of the products of its labor and it is prepared in the interest of no individual enterprise but so far as possible in the interest of all. Mention is made of many of the leading mines in that region or section tributary to Wickenburg. But it would take a big book to tell the facts about all of them and there are numerous prospects that are not mentioned at all that in the near future may prove as big mines as any of them. The association is continually accumulating data and is in a position to give information on many points not covered by the prospectus, or later developments on the same subjects.

The frontispiece is a picture of Henry Wickenburg, the oldest resident of the place and after whom the town was named. It was he also who discovered the famous Vulture mine a few miles to the west of Wickenburg. In the back of the prospectus is a map showing the location of many of the best known properties in the district and a very convenient thing for anybody to have.

It is impossible to give here, even a resume of the contents of the pamphlet. Its properties are so numerous but the association will be pleased to furnish authentic information to any and all who are desirous of investigating. The president of the association is D. L. Murray, formerly sheriff and treasurer of this county, the vice president is W. L. Etter, the secretary is J. F. Jones. D. L. Murray is also secretary of the Chamber of Commerce and is D. J. Curry and the treasurer is R. W. Baxter. The member of the executive committee are L. C. Nickerson, Henry Cowell, F. X. O'Brien, John Wetherley, W. S. Holland and Dr. J. M. Evans.

POINTED ARGUMENT.

"Mr. Orayter, our new member of congress," says the constituent, "is heavily interested in the importation of tacks. He is going to see to it that the duty on them is removed. I'll bet he makes a great speech." "No doubt," says the listener, "his remarks will bristle with strong points when he attacks the tacks tax." Judge.

STARTING SOMETHING.
