RE: Non-navigable status of lower Salt River

Dear Chairman Eisenhower and Commissioners:

On behalf of our many businesses and community organizations, including entities along the Salt River and downtown Phoenix, the Phoenix Community Alliance urges the Commission to declare the Salt River below Granite Reef Diversion Dam to be a non-navigable river.

In this year of the Centennial of the Salt River Project, community leaders have become more aware than ever before of the historic events leading to construction of critical dams and water features serving the Valley.

Sincerely,

Handwritten signature of Don Keuth

Don Keuth
