The people of Tempe want a bridge across the Salt river. Assemblyman Peterson will get the legislative consent if the potato growers will furnish the coin.—Gazette. If the people of Tempe want a bridge real badly the legislature should give them permission to build it, and pay for it, provided proper draw facilities are provided so as not to interfere with the navigation of Salt river.

Chairman Jones and his brother democrats in the house are showing their appreciation of Arizona's democratic majority by opposing the \$100,000 appropriation for water storage.

Why does not Col. Wilson take his friend Senator Jones by the ear and secure his influence for that \$100,000 appropriation for Arizona.

The Paris Siecle prints a long article regarding the alleged pending marriage of the Emperor of Austria to Frau Schrott, formerly of the Burg theatre. It is said that the Pope, yielding to diplomatic representations has annulled the lady's former marriage to Baron Kisch, that she has been created Countess Von Hochsternberg, and that her marriage to the emperor will be celebrated immediately she is freed from former ties.

California has been treated to another heavy rain storm. Oakland reports an inch and a quarter and San Jose two inches within twenty-four hours and Los Angeles two and a half inches. Street car traffic in the latter city is almost at a stand still and considerable interruption is being experienced at outside telegraph and telephone exchanges.

actment of that bill passed by the eighteenth legislative assembly would be an act of justice to him and would not be unjust to the county.

#### INSTITUTION NOT NEEDED.

Roemer, of Cochise, introduced a bill in the house to establish a territorial reform school for juvenile offenders. The territory has already spent about \$50,000 or \$60,000 for a reform school and then found that it had no use for it and turned it over to Flagstaff for a high school building under the guise of a normal school. Governor Murphy's suggestion in regard to the incorrigible youth of the territory is a practical and sensible one. That is to arrange with the state of California to have them taken care of at the Whittier school Southern California. With the limited number of this class in this territory they could be provided for there at about one tenth the cost of maintaining a reform school and without the expense of such a building being imposed on the tax payers of the territory. This bill should be promptly killed.

#### A SUGGESTION TO THE LEGISLATURE.

A subject of appropriate legislation which is respectfully submitted to the legislature for its consideration, and which should receive its immediate and favorable attention, is providing for the execution of convicted murderers similar to the California law. That is, as soon as a man is sentenced to death he should be taken to the penitentiary and be confined there

fully it will discover that no charges of bribery have yet been made, so they could not very well arrest and convict any one on such a charge until the act is accomplished. As to Prescott raising \$20,000 or any other sum to fight county division, no one knows better than the Reporter man that there is not a word of truth in such an intimation and that no such intimation of this kind has ever been made until published in the above paper.

#### OREGON SENATORIAL FIGHT.

As a rule Arizona, and Arizonans are not specially interested in the senatorial fights which come up in the various states, but it so happens occasionally that they are deeply interested almost as though the election was for a senator from the territory itself. In our present condition of territorial dependency, when the only representation that is accorded us is a delegate, whose position outside of
